

# THE BENEFITS OF JOINING A PLAN

**Reduces the risk** of expensive restorative treatment in the future with regular attendance

**20% off treatment** not included on our dental plans

**Spread the cost** of your routine dental care over monthly direct debits

**Saves you money** compared to private pay-as-you go fees

## TERMS AND CONDITIONS

The Smile Plan does not cover treatment from a specialist, hospital or consultant, nor does it cover implants or cosmetic dentistry. The scheme is unique to this practice and is not transferable. Any payments paid in advance are not refundable but, upon written notification of your withdrawal from the scheme, no further payments will be requested from your bank. The plan will be administered by DPAS Limited who will make a separate arrangement with you to manage your convenient monthly payments. The monthly plan cost includes the charges for management and administration payable by you to DPAS. One-off joining fee: In addition to your first monthly payment, a one-off registration fee of £20.00 per person will be charged, and included in your first Direct Debit payment. Plan members are subject to prepayment policies and cancellation fees. It is the responsibility of the plan member to schedule appointments and maintain regular visits. We recommend booking all appointments in advance to secure availability. It is the responsibility of the patient that appointments are scheduled in advance to take full advantage of your entitlements before the year's end. Any entitlement which is not utilised will be forfeited.
