CENTRE

Maintaining your dental health

Quality of life is important. Science suggests that gum disease is directly linked to many health issues such as heart disease, diabetes, lung disease and strokes, and that's why we encourage our patients to prioritise their dental wellbeing.

For just £30 a month you will feel reassured by your thorough dental examinations, which include enhanced oral cancer screening. Professional care and education by our hygienists will leave your mouth looking and feeling healthier. The plan includes a supplementary emergency assistance scheme (subject to terms), safeguarding your investment in the health of your mouth.

Healthy gums are a prerequisite for any cosmetic or restorative treatments so to celebrate the healthy foundations we help you achieve, we extend a 20% discount for any additional dental or hygiene treatments you may wish to undertake.

Research shows that preventive dentistry delivered on a regular basis reduces the risk of dental disease and provides a platform for a lifetime of improved oral health.

Join our Bronze Plan today.
Save money and enjoy your teeth for life.

Plan costs and benefits:

£30 per month*

The plan provides for:

- All examinations and x-rays
- Two hygienist visits (one hour per annum)
