

# Smile Plan Silver

THE  
SMILE  
CENTRE

## Peace of mind with our comprehensive dental care plans

Whilst dental disease affects us all, some of us are more at risk than others

If you have a history of needing dental treatment and worry that expensive treatment may be necessary in the future, The Smile Plans Silver and Gold, starting at £52.50 per month, may be the ideal solution.

For a monthly fee that makes budgeting easier, in addition to visiting us twice a year for thorough dental examinations - including an oral cancer check, and meticulous hygiene therapy, you receive any necessary treatment to restore the function of your teeth and mouth (as outlined in each specific plan).

Your monthly fee also includes a supplementary emergency assistance scheme (subject to terms), safeguarding your investment in the health of your mouth.

Our thorough approach to your care works on two levels. Being on a dental plan that includes two comprehensive examinations and two visits to the hygienist a year, our aim is to keep you dentally fit and to maintain that healthy focus thus avoiding the need for invasive treatment. But sometimes genetics, the wear and tear of any existing restorations and other lifestyle choices get in the way so should you need treatment, you can relax knowing that all or most of the cost is covered by the Plan.

Plan costs & benefits:  
£52.50 per month\*

The plan provides for:

- All examinations and x-rays
- Two hygienist visits (one hour per annum)
- 20% discount from any further hygienist appointments or dental treatments not covered by the Smile Plan Silver
- Fillings (tooth-coloured or silver)
- Extractions
- Dentures (excluding laboratory fees)

\* All prices are per person

Acceptance onto these dental plans are subject to approval by your dentist
